SUMMARY

Full-Stack Developer building scalable APIs, backend services, and web and mobile apps. Won Innovathon 2026 in Tagum City. Focused on clean, maintainable code and systems that stay reliable.

TECHNICAL SKILLS

- **Languages:** Java, TypeScript, Kotlin, Python, JavaScript
- **Frontend:** Angular, Flutter, Tailwind CSS, React, Next.js
- **Backend & Cloud:** Laravel, Node.js, Supabase
- **Databases:** MySQL, PostgreSQL, Firebase Realtime Database
- **Tools:** Git/GitHub, Docker, Postman, Figma, VS Code, Android Studio

EDUCATION

Bachelor of Science in Information Technology — ACES Tagum College Inc.
Tagum City, Philippines | 2023 – Expected 2027

- Relevant Coursework: Object-Oriented Programming, Distributed Systems, Web Systems and Technologies, Information Management, Data Structures and Algorithms

PROJECTS

OcuTemp: IoT Occupancy-Based Air Conditioning Control System | Angular · IoT · Firebase
Full-Stack Developer (Capstone Project)

- Engineered a full-stack capstone system that controls air conditioning based on room occupancy, using IoT devices, an Angular front end and Firebase.
- Developed real-time telemetry data visualization with Angular and Firebase for monitoring the system.
- Designed a responsive, component-based Angular interface with smooth navigation.

Drivora: Car Rental Mobile App | Flutter · MySQL · Stripe
Full-Stack Developer

- Built a car rental mobile app with Flutter for browsing available cars and booking rentals.
- Modeled a MySQL database to store and manage vehicle, customer and rental booking records.
- Integrated Stripe payments for in-app rental checkout, tested end to end in Stripe's test mode.

Lodgify: Hotel Booking System | Laravel · Blade · MySQL
Full-Stack Developer

- Implemented a hotel booking and property management system with Laravel and Blade templates.
- Structured a MySQL database for reliable storage and management of booking and property data.

AWARDS & COMPETITIONS

- **Innovathon 2026 Grand Winner (Tagum City)** — Won with a team-built solution to a real-world problem, pitched to judges against teams of students, developers and entrepreneurs
- **HACKF52026 (Region XI)** — Placed Top 6 in the Davao Region with Team MALLOC in DICT's timed Capture the Flag cybersecurity competition; solved web exploitation, digital forensics and vulnerability analysis challenges
- **IT Pitching Competition** — Placed Top 9 representing ACES Tagum College at the regional IT Olympiad 2026 (PSITE Region XI), pitching a technology product to a panel of judges
- **Programmer of the Year and UI/UX Designer of the Year** — ACES Tagum College Inc., 2026
- **Certifications:** Python Essentials 1 (Cisco Networking Academy); AI Fundamentals: Foundations for Understanding AI and Language and Vision in AI (DICT-ITU DTC Initiative)
